

CASTANEA

The Journal of the Southern Appalachian Botanical Society

December 2015

Vol. 80 No. 4

CONTENTS

2015 Richard and Minnie Windler Award Recipients Sabrina Y.S. Sewell and Wendy B. Zomlefer; and Katherine E. Culatta and Jonathan L. Horton	227
ECOLOGY	
Impact of Insecticide Treatment on Herbivory and Reproductive Success of the Federally Endangered Plant <i>Clematis morefieldii</i> Kral Kyle J. Paris, Kevin Burgess, Amy N. Wright, and Robert S. Boyd	229
Demographics and <i>Cronartium appalachianum</i> Rust Disease Assessments in Three Tennessee Populations of <i>Buckleya distichophylla</i> (Nutt.) Torr. (Santalaceae) William S. Ratliff, Elaine S. Walker, and Foster Levy	243
FLORISTICE AND PHYTOGEOGRAPHY	
Additions to the Vascular Flora of the Red Slough Wildlife Management Area, McCurtain County, Oklahoma Bruce W. Hoagland, Amy Buthod, and David Arbour	253
SYSTEMATICS/EVOLUTION	
A New Hybrid of <i>Asimina</i> (Annonaceae) Based on Morphological and Ecological Data Charles N. Horn	262
NOTEWORTHY COLLECTIONS	
A Novel Hybrid Apomictic <i>Eupatorium</i> (Asteraceae) from the Southern Appalachians Edward E. Schilling and Daniel E. Schilling	273
BOOK REVIEW	
Flora of Florida, Volume II: Dicotyledons, Cabombaceae through Geraniaceae, by Richard P. Wunderlin and Bruce F. Hansen Cynthia M. Morton	278

ERRATA

The author line of the Breen (2015) article, "The Influence of Agricultural Abandonment and the Abiotic Environment on the Vegetation Communities of a Suburban Deciduous Forest", [*Castanea* 80(2):103-121] has been amended to include Daniel B. Breen, as well as Vanessa B. Beauchamp (Department of Biological Sciences, Towson University, 8000 York Road, Towson, Maryland, 21252), Stephanie M. Koontz (Archbold Biological Station, 123 Main Dr., Venus, Florida, 33960), and Roland P. Roberts (Department of Biological Sciences, Towson University, 8000 York Road, Towson, Maryland, 21252), in that order.

Following acceptance of the Floyd et al. (2015) article "*Aldrovanda vesiculosa* at Fort A.P. Hill" [*Castanea* 80(3):211-217], but before publication, relevant work on the ecology of a population of *A. vesiculosa* from Meadow Creek was published by Cross et al. (2015) [*Freshwater Ecology* 60:1772-1783].
